Custom Software Development
Company and IT Staffing Agency

Custom Software Services

Ready to Get Your Software Developed and Launched Fast?

At Velocity Works, we offer custom software development and IT consulting services to get your project off the ground and running fast. **Save on time and costs** from hiring an in-house IT team, and outsource your technical support with us!

Support You Can Rely On

We provide our customers the flexibility of support through both our **US based office** and **offshore office in India**.

Together, our teams work in sync to ensure each project is completed in a timely manner and practice advanced agile methodologies.

Product Offerings:

- Mobile App Development
- Custom Software Development
- Cloud Development
- Database Development

Software Product Development

We can build any vision, and turn it into a minimum viable product that is customized to meet your needs. Our team has worked in some of the most highly regulated industries, and have conquered some challenging compliance standards. At Velocity Works, we love a challenge to come up on top!

IT Consulting Services

Whether you have an existing project that's not where it needs to be or lack technical support, Velocity Works can help! Our skilled software engineers and developers can create a strategy for you and jump on any project without missing a beat. Scale faster with an experienced IT consulting company by your side.

Win the Race Against the Clocks with Velocity Works

At Velocity Works, we see every opportunity as a chance to get the product to the market first. Time is precious, and we make the most out of every minute to build a minimum viable product that is seamless and fully automated to perform.
